RP
thank all the team on my behalf.
very well done job.
unfortunately a car accident killed the mother of the First Lady and consequently the whole event was delayed probably for next month.
I have few points to clarify and detail but I prefer to wait few days. i'll come back to you and Evan late next week.
On another issue,an Israeli HNWI whom I know for years shown an interest in Burma investments. I wonder whether we have a brochure or one pager that can be given to him to attract him to do it through us. the most important element for him might be the track record of our Partner through his previous career. Let me know.
I still plan to go to IC in the coming week.
best
EB
